Q No 568 - by Sri M Palaniyappan -

Will the Government be pleased to state -

- a) when the Health Officer of the Corporation of Bangalore retired,
- b) whether any new Health Officer has been appointed in his place, if not, the reason?

The member enquired of Government whether they would immediately appoint ^athe Health Officer to the Corporation of Bangalore by virtue of the power vested in them under the Corporation Act. The Minister for L S G and Public Health promised that he would get the matter examined.

This may be submitted to the Minister for confirmation before sending it to the Medical branch for necessary action.

THROUGH:

The Commissioner,
Corperation of the City of Bangalore,
B A N G A L O R E.

Sir,

Sub:-Filling the post of Health Officer, Corperation of the
City of Bangalore.

Ref:-i. My application for the post dated 18th April 1955.

ii. Resolution of the Corperation dated 29th March 1956
recommending the name of Dr S R Bombero of Public
Health Department to the post of Health Officer.

I beg to submit this my appeal for favour of consideration
of the Government and orders thereon

I am enclosing herewith a copy of my application for the
post to-gether with the recommendation of the then Health Officer,
Dr M R Geverdhan, for favour of perusal of the Government. On
my application the Standing Committee (Health) considered my case
with the penel of names received from the Officers of Public Health
Department and recommended me for being appointed as the Health
Officer, Corperation of the City of Bangalore.

A perusal of my application will give all the details of my
qualifications, experiences and administrative abilities In
fact I am the only Officer who holds a qualification of M P H
(Master of Public Health) with a specialisation in Public Health
Administration of a City and who has visited the various Cities

Cities and institutions in foreign countries having in mind the problem of Bangalore City. Having in view of the vacancy that might fall vacant in the Corporation, I have taken steps in advance to qualify myself with the qualification of M P H , in Johns Hopkins University, Baltimore, U S A , which should be one of the main consideration and qualification for the filling up of the post of Health Officer in the Corporation I may be permitted to add that there is no other Officer in Mysore State with 15 years experience in City Health administration

I took charge from Dr M R Goverdhan from 21st October 1955 as Health Officer of the Corporation. From that date, the Corporation was visited by high dignitaries of the other countries, viz,, Mr N.A.Bulganin and Mr N S.Khrusehev from Soviet Union, Mr Debar, the Congress President, King and Queen from Nepal, Dr Md.Hatta, Vice President from Indonesia, King of Saudi Arabia, King and Queen of Iran During these visits I have done my utmost to maintain the high standard of sanitation and Public Health in this City which received high approbation from the visitors.

In addition the ECAFE Conferences were held in the Sir Puttanna Chetty Town Hall, Bangalore which was attended to by number of foreign delegates of all countries who were here for more than a month. The lodging places of delegates and the meeting places were maintained in a fitting position to suit the functions A copy of letter received from the Special Officer of the ECAFE is herewith enclosed for favour of perusal of the Government These few items of my work turned out apart from my multifarious administrative activities of the City will show my capacities, abilities, aptitude of executive work in all spheres of Public Health administration of a City.

In spite of my high qualifications, experience in City Health administration, I have been patiently waiting as a II Grade Health Officer for 15 years for a vacancy to occur in the Corporation At this juncture, if I am denied this most deserved promotion, the progress of myself and my other colleagues will suffer and bring forth train of discontentment and apathy for work Many Officers in Public Health Department with lesser years of service and qualifications

qualifications have become first grade Health Officers.

In this connection I may be permitted to add that the Officer selected is in no way superior to me in qualification and experience of a City Health administration. He has served 4 years in the Medical Department and 14 years in the Public Health Department (similar to me). He is an expert in Malaria having specialised in Malariology, and I am an expert in City Health administration with 15 years of experience and knowledge of the various Public Health problems of the City of Bangalore. The selected Officer is in charge of National Malaria Schemes and his transfer would definitely make the scheme poorer and his rich experience in malaria goes waste in Bangalore, as there is no Malaria Problem in City of Bangalore.

In view of my rich experience and specialisation in City Health work, I earnestly request the Government not to place me and humiliate me by placing me under a person ^{with} different speciality.

In view of the facts stated above I would earnestly request the Government to kindly review the entire case and make use of the few trained persons in a fitting manner for the good of the country and do justice for the training we have.

I hope that due consideration will be given to the points raised by me and justice done to a Loyal Officer of the Corporation.

Yours faithfully,

H Krishna Rao

viii. Resolution of the Corporation and the Health Committee:

The Health Committee in its recommendation dated 29th November 1951, and the Corporation resolution dated 28th December 1951 requested the Rockefeller Foundation, New York, to grant a fellowship to one of its officers to study for a Master of Public Health degree at the Johns Hopkins University or at the Harvard University in U S A and also grant a study tour of certain cities in the United States and the United Kingdom.

In a note to the Rockefeller Foundation the Corporation said "During the Post-war period, Bangalore has become an important centre nationally, internationally and a great industrial centre Bangalore is facing many public health problems which require thorough investigation and launching proper schemes to safeguard the public health of this large and growing industrial town In view of the many problems confronting the City Corporation, it is but necessary that we should have a highly trained officer with knowledge of modern developments in public health who will face and tackle the problems and advise the Corporation".

The Rockefeller Foundation realizing the importance of Bangalore in the post-war period and appreciating the strong desire of the Corporation to have its officer trained in public health in U S A and U K granted the fellowship and made arrangements for my study for a Masters Degree in Public Health with a specialisation in the City Public Health Administration at the Johns Hopkins University, also sent me to various cities of the United States and United Kingdom The Rockefeller Foundation while making arrangements for my study always kept the problems of Bangalore in mind and trained me in such a way as to be useful to Bangalore.

16

After my return I made a report of my study and activities in the United States and United Kingdom.

The Corporation in its resolution dated 30th November 1953 approved of my report and thanked the Rocke Feller Foundation, stating that the Corporation will make the full use of the training for the benefit of Bangalore

During my stay in the United States and the United Kingdom I have spared no pains in knowing the various public health measures that would be of benefit and assistance to Bangalore I can assure you that I am the only M P H in Mysore State who has specialised in the Public Health Administration of a City, and who has visited the various cities and institutions having in mind the problems of Bangalore

ix. Health Officers of the Public Health Department, Government of Mysore, who joined service on 1943-44 have become first grade Health Officers, (Rs. 550/- Rs. 880/-) a few of them without foreign qualifications. Though I joined the Municipal health department in 1941, I am still a Second Grade Health Officer because of the non-availability of another post of first grade in the Corporation. If I was in Government service I would have been quite a senior officer by now in view of my service, experience and my foreign qualifications.

Sir, in conclusion I would request you to kindly place the following salient facts before the Corporation and the Government and propose by name for the ~~post~~ post of the Health Officer to the Corporation of the City of Bangalore

1. Seniority in service
2. Long years of service and experience in the Municipal Administration of Bangalore
3. My foreign qualifications with specialisation in city public health ~~administration~~ administration which no one else possess in the Mysore State.
4. Practical knowledge gained in public health by visit to various cities of the United States and the United Kingdom.
5. The objects of the Corporation when it made the request for training to the Rocke Feller Foundation
6. Special interest taken by the Rocke Feller Foundation in training me to suit the needs of the Corporation of Bangalore.

Thanking you,

Yours faithfully,

W. Thiruvatha
